RESISTANT TO FIRE AND UV

Made under 1280 °C sintering. Do not emit and toxic substances when subjected to high temperatures.

100% NATURAL MATERIAL

Hygienic surface is suitable for contact with foods. Non-toxic slabs resistant to any kind of acids and liquid chemicals such as bleach or ammonia.

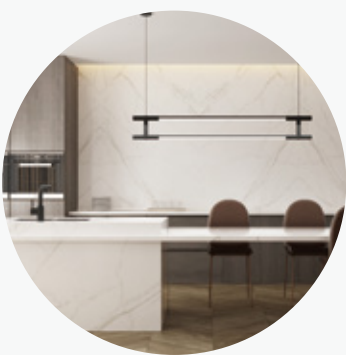

PRODUCT PERFORMANCE

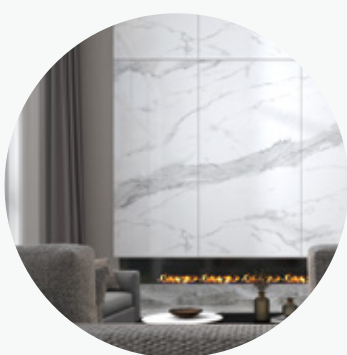

PRODUCTION PROCESS

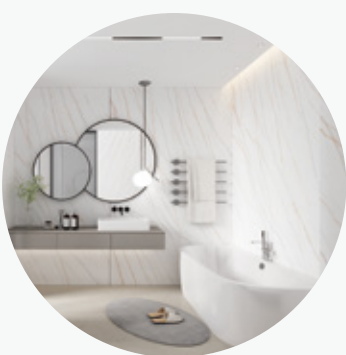

APPLICATIONS

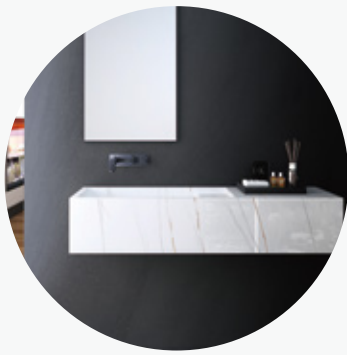

Kitchen Full Back Splash

Fireplace Facing

Inside Shower Wall

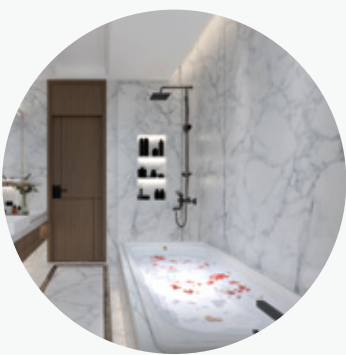

Ensuite Sink Wall

SinStone Series is a revolutionary new product formed from 100% natural materials:

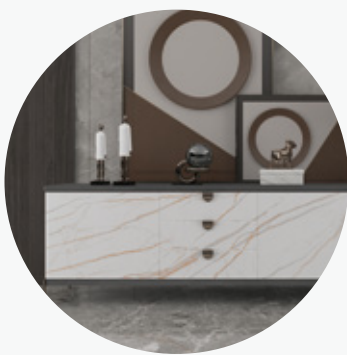

1. Quartz and feldspar which provide the product with hardness and strength
2. Minerals from glass and silica that provide chemical stability
3. Natural oxides offering chromatic properties

Sintered at a temperature of 1300°C, to create a compact material with unrivalled technical performance.

All SinStone Series slabs have structural, aesthetic and functional characteristics that makes Sinstone an unique option for indoor furnishings and outdoor coverings.
